

**NOTICE TO MARINERS**

22/09

**River Clyde**  
**Maintenance Dredging Works March 2009**

Mariners are advised that Westminster Dredging Co. Ltd's Trailer Hopper Suction Dredger "WD Medway II" will come on hire to Clydeport during the first week of March 2009 to carry out a programme of maintenance dredging at the following locations:-

- King George V Dock, Shieldhall River Channel and Shieldhall Riverside Quay
- Braehead River Channel
- Rothesay Dock River Channel and Dock

The dump site will be off Cloch Point in the Firth of Clyde.

During the project the bed levelling tug "Kamsar" will be carrying out associated works at the above areas.

It is anticipated that the works will be completed in approximately 3 to 4 weeks.

Mariners transiting the above areas should contact Clydeport Estuary Control, "WD Medway II" or "Kamsar" on VHF Channels 12 and 16 for details of vessel movements and positions and modify any passage planning accordingly. Thereafter, mariners are advised to navigate at slow speed and with caution when transiting the dredging areas.

During this mobilisation the dredger and bed leveller will also be working for BVT at the Scotstoun Yard.
